

Don't Dump on Us

It's dangerous, costly and illegal! Dumping chemicals, debris or storm water into the sanitary sewer causes serious problems. Please report illegal dumping or any other suspicious activity within our sewer system to (317) 844-9200 or anonymously at our website - www.CTRWD.org

Out of sight doesn't always stay that way. Illegal dumping affects our entire system. From unknown substances upsetting the biological treatment process to excessive flow and debris causing backups and overflows. Help protect our local environment by reporting illegal dumping or any other suspicious activity around sewer manholes.

CALL 844-9200
