### **Board of Trustees Meeting Agenda**

**Monday, May 9, 2016 @ 7:00 p.m.**

**Clay Township Government Center**

**10701 N. College Avenue, Indianapolis, IN 46280**

- 1. Roll Call**
- 2. Approval of Meeting Memorandum**
  - a. Board Meeting April 11, 2016
- 3. Indiana Rural Water Association Presentation**
- 4. Public Comment**
- 5. Attorney's Report**
  - a. Project Updates
  - b. Report of Pending Litigation
- 6. Utility Director's Report**
  - a. Director's Report
- 7. Committee Reports**
  - a. Budget & Finance Committee
    - i. First Reading Ordinance #05-09-2016
  - b. Personnel & Benefits Committee
  - c. Capital & Construction Committee
    - i. Dedication – Jacksons Grant Sec. 1B & Drury Plaza sanitary sewers
    - ii. Engineering Services Contract for #1602 Springmill Parallel Interceptor
- 8. Old Business**
  - a. District Name
- 9. New Business**
  - a. Claims Docket
- 10. Adjourn**

---

BOARD OF TRUSTEES MEETING  
Monday, April 11, 2016 @ 7:00 p.m.  
Memorandum

Ms. Anderson called the meeting to order at 7:00 p.m.

**ROLL CALL**

Present: Board President Marilyn Anderson, Vice President Joe Clark, Treasurer Jane Merrill, Secretary Michael McDonald, Members Eric Hand, Carl Mills, Amanda Foley, Chuck Ford and Steve Pittman. Also in attendance: Legal Counsel Anne Poindexter, Utility Director Drew Williams.

The audience sheet is attached.

**APPROVAL OF MEMORANDUM**

A motion was made by Ms. Merrill to approve the March 14, 2016 Board Meeting Memorandum, and was seconded by Mr. Mills. The motion was approved unanimously.

**PUBLIC COMMENTS**

There were no public comments.

**ATTORNEY'S REPORT**

There were no items to report. Mrs. Poindexter indicated she would report under New Business.

**UTILITY DIRECTOR'S REPORT**

Mr. Williams reported that the District is fully staffed with the recent addition of Ryan Weddle to the Collections Department, who brings with him 8 years of experience in the wastewater field. Ryan was previously employed by the West Central Conservancy District. Susan Vallone will be retiring on May 6 and staff will have a good bye luncheon for her on Thursday May 5. Faith Richman has been hired to replace Susan and her first day of employment will be April 25.

**BUDGET & FINANCE COMMITTEE**

There were no action items.

**PERSONNEL & BENEFITS COMMITTEE**

Two additional summer interns will be hired this summer to help during the peak season.

## **CAPITAL & CONSTRUCTION COMMITTEE**

A motion was made by Ms. Foley to accept the dedication of the Jackson's Grant Section 1A sanitary sewers and was seconded by Mr. Pittman. The motion was approved unanimously.

Mr. Merkle reported that staff is working on the 106<sup>th</sup> Street force main project, which commenced a little over a year ago. All but 2 easements have been obtained at this time. The needed easements are on either side of Ditch Road at the 106<sup>th</sup> Street roundabout. The project is critical for moving wet weather flows over to the District's WWTP. Staff is negotiating with the 2 property owners. Mr. Pittman asked if both of those properties will have access to the sewer system. Mr. Merkle indicated that they would not have access since the proposed line is a force main. The easements would be 20 feet off of the right of way on either side of Ditch Road and a control cabinet will be located on one of the parcels. Mr. Pittman asked how high above ground would the structure be. Mr. Merkle indicated that the control cabinet is about 5' tall. Mr. Mills asked when the project would begin since there is a golf tournament at Crooked Stick this September. Mr. Merkle would begin the project as soon as the easements are obtained and the District has agreed that there will not be any equipment near Crooked Stick Golf Club two weeks before and during the tournament in September.

A motion was made by Mr. Mills to make a formal offer of Uniform Acquisition to the remaining 2 property owners for which the necessary easements have not been obtained. They will be given 10 days to respond, after which time Mrs. Poindexter will begin the condemnation process, and was seconded by Ms. Foley. The motion was approved unanimously.

## **OLD BUSINESS**

Mr. Williams reported that the plans for the 40<sup>th</sup> Anniversary Recognition have been readjusted for a date in late June, to be finalized once Board Members check their schedules.

Mr. Williams stated that the work on a name change has been slow. Ms. Merrill recommended that five names be suggested and put before the Board for consideration. This would help with the evaluation and decision process.

## **NEW BUSINESS**

Mr. Merkle presented the I&I Pilot Project to address the Basin 1 wet weather issues as well as wet weather flow in the LS #2 area. (Presentation is attached.)

A motion was made by Ms. Merrill to approve the docket in the amount of \$863,467.29 and was seconded by Mr. Mills. The motion was approved unanimously.

Mrs. Poindexter announced the dissolution of Campbell Kyle Proffitt as of the end of April. As of May 1, Mrs. Poindexter will be with Altman Poindexter & Wyatt LLC.

## **ADJOURN**

At 7:50 p.m. a motion was made by Mr. Mills to adjourn the meeting and was seconded by Mr. Hand. The motion was approved unanimously.

The next Board of Trustees Meeting is scheduled for Monday, May 9, 2016 at 7:00 p.m.

Respectfully submitted,

Andrew Williams  
Utility Director

MONTHLY NEWSLETTER

## FINANCIALS—RON HANSEN

In March, Sales were favorable at 8% higher than budgeted due to higher Residential and Commercial Sales. Operating Expenses were also favorable with 14% lower spending due in part to lower than budgeted treatment volume sent to Carmel. As a result, Net Income of \$146,000 was 213% higher than budgeted.

For the year, Sales were favorable at 8% higher than budgeted and Operating Expenses were favorable with 8% lower spending than budgeted. Lower than budgeted spending in the Collection department accounted for 61% of the lower spending. Net Income was favorable at 134% over budget and 25% higher than the first three months of 2015.

Capital spending for March was \$730,000 or 6% of the 2016 Capital Budget and 11% for the year. The 2016 Capital Budget totals \$11,306,000.

Cash balances decreased by \$103,000 in March and have increased \$339,000 for the year. Cash balances were \$1,700,000 higher than March 2015.

The Budget & Finance Committee will be recommending the first reading of Ordinance 05-09-2016 at the May board meeting. This ordinance is a 5% customer rate increase or an additional \$1.44 per month for 7,000 gallons usage. If approved, it will go into effect for service as of July 1, 2016.

## CUSTOMER SERVICE/BILLING—

### TERRI KREYLING

In April, there were two liens filed due to pending sheriff sales totaling \$164.22. The current lien balance is \$31,483.55. Permit applications have increased with 51 being issued in April. 22 new locations were added to billing and the total number of customers receiving their statement by email is now 2,001.

The Customer Service department is transitioning Susan's role to Faith. While she has some big shoes to fill, Faith is a fast learner and catching on quickly.

A major focus of the department this year is cross training for coverage when someone is out of the office; which has gone very well. Shelly has been doing in depth training for bill processing and is at the point where she could cover for Terri in an emergency. She has also successfully learned the auto debit and late fee processes. Edie has learned how to enter payments and take customer credit card payments by phone. Colleen has taken over permit processing and scheduling of inspections until HiperWeb is up and running. Once HiperWeb is fully functional, Faith will be trained on those activities. Colleen has also learned how to scan the checks for deposit into the bank. They have all worked hard to make sure the department runs smoothly, not only during Faith's training, but into the future.

### CALENDAR OF EVENTS

## INSIDE THIS ISSUE

Financials	1
Customer Service/Billing	1
Plant Report	2

Construction/Engineering	3
Employee Spotlight	4

## PLANT REPORT—Loren Prange

During the month of April, BL Anderson installed a new sound muffler on Digester 5 at the WWTP to reduce the exhaust sound. CIC installed an orbal gate actuator in the splitter structure, which help control the amount of flow being treated in the Orbal. This will eliminate the overloading of the orbal during wet weather flows. Plant staff completed the semiannual oil changes on plant gear reducers this month. Ace completed the DO metering project for digesters 4 & 5. The meters will help to keep the dissolved oxygen in the proper operating range to optimize sludge digestion.

The unused room in the chemical building now houses the safety equipment, including traffic control signs. The District had a Safety and Lab audit for the upcoming IWEA annual conference. This audit is required in order to be considered for the Excellence Award in each category.

These slides are part of the presentations Bob Roudebush uses during community outreach in the schools

## SAFETY UPDATE -

The District had no reportable injuries this month and has gone 2,269 days without a lost time accident.

Safety tailgate sessions in April included:

- 04/05/16 Carbon Monoxide: A silent killer
- 04/12/16 Identify, Treat and prevent carpal tunnel syndrome
- 04/19/16 Don't let chemical's get to you!
- 04/26/16 Keeping chemical deliveries safe

Training with Safety Resources included the following:

- 05/02/2016 Confined Space Entry

Monthly inspection of building fire extinguishers and vehicles were completed in April.

## CONSTRUCTION & ENGINEERING - WES MERKLE

### Construction Update

Lift Station 2 upgrades will be nearly complete this month. The large VFDs and generator, items which had the longest lead time, were recently delivered to the site. Crews will finish installing remaining equipment in the coming weeks.

The Manhole Rehabilitation project continues with completion expected by July. Multiple crews are working in the area raising manholes, replacing castings in pavement, replacing end of run cleanouts, and manhole lining. This work is expected to remove a substantial amount of I&I in Basin 1 and other parts of our service area.

Crews are finishing installation of piping for the Cedar Point Sewer Extension project. Testing and clean-up will be completed in the coming weeks.

The Ream Creek Sewer Relocation project is on hold until a fiber optic line is relocated. This line was installed in an exclusive sanitary sewer easement and its owner agreed to relocate the line at their own expense. Sewer work is expected to resume in a few weeks.

### Engineering Update

Over the past month engineering staff completed 728 locates, 52 I&I inspections, and 29 lateral inspections. Staff, with help from consultants, is observing mainline sewer installation at 11 development projects. 15 development projects are in plan review.

Staff has begun televising and GPS locating laterals in the Home Place area, which is the worst performing part of Basin 1 in terms of I&I. I&I inspections will be performed afterwards. This area also has the lowest concentration of properties in Basin 1 having completed and passed an I&I inspection.

Flow metering continues in Basins 1 and 8. Several flow meters will remain in Basin 1 to verify I&I removal efforts. Six flow meters have been moved to Basin 8 to hone in on significant I&I sources there.

Design is underway for the WWTP Odor Control Upgrades project. Bids will be received next month with construction expected to begin this summer. Staff is researching biological odor control solutions for Lift Station 17. Equipment should be up and running at both locations by the end of the year.

Designers are finalizing work on the 106<sup>th</sup> Street Parallel Force main project so bids can be received late June. Agreements have been reached with all property owners regarding easements needed for this project.

Design work for the Springmill Parallel Interceptor project will begin later this month. This project will provide additional capacity for the existing Springmill Interceptor. It will also enable us to one day extend service to the Springmill Place neighborhood and presently undeveloped parcels between 106<sup>th</sup> and 111<sup>th</sup> Streets.

New 750 KW generator recently delivered to Lift Station 2.

## EMPLOYEE SPOTLIGHT—SUSAN VALLONE

This month's employee spotlight is on Susan Vallone, who will retire on May 6th after nearly 21 years with the District. Susan has been the friendly face and voice representing the Customer Service Department since the day she came in to pay her bill 21 years ago. That is when Candy Feltner asked if she might be interested in working for the District; and the rest is history.

Over the past 21 years, Susan has mastered the art of customer service and set the tone for a professional and warm work environment. Susan's sense of humor combined with her confidence and expertise as a representative of the District will be greatly missed.

Those benefiting from Susan's retirement include first and foremost her husband of 36 years—Frank Vallone. Frank recently retired from 37+ years as a Carmel Firefighter. Frank and Susan will enjoy spending more time with each other, especially as they plan to travel to their favorite vacation spot on Key West next month! Frank and Susan will soon be welcoming their second grandson expected this month to their daughter Diana and her husband Ian. Six year old Mason will be very pleased to have his grandma available for his entertainment. Susan's son Joe and his wife Margo also look forward to more fun times and delicious Italian dinners!

So, "here's to you" Susan. We all wish you the very best of everything and thank you for the contribution you have made to the success and growth of the District.

## BUDGET & FINANCE COMMITTEE

Friday, April 29, 2016 @ 7:30 A.M.

### Memorandum

Present: Committee Chair Jane Merrill, Committee Members Eric Hand and Carl Mills, Legal Counsel Anne Poindexter, Utility Director Drew Williams, Controller Ron Hansen, and Customer Service Manager Terri Kreyling.

Ms. Merrill called the meeting to order at 7:34 a.m.

User Rate Ordinance– User Rate Ordinance 05-09-2016 includes a 5% increase to the monthly user rates that was included in the 2016 Budget. The rates would become effective for service beginning July 1, 2016. The rate of \$28.96 for 7000 gallons consumption will increase to \$30.40. The fees and charges listed in the other sections are included to replace old ordinances and do not include any increases. The Committee will present Rate Ordinance 05-09-2016 at the May board meeting for a first reading.

Financial Statements and Investments – Mr. Hansen reviewed the financial statements for March. All of the variances are positive with higher sales and lower expenses for the month and year. Mr. Hansen noted that Wages were over budget due the Collections Superintendent position that was not budgeted and the first payout of the health insurance waiver incentives of \$4,000.

Mr. Hansen noted an opportunity to invest funds in a Fifth Third bank money market account. The proposal is being evaluated.

### Other Business –

Ms. Merrill asked how the FOG program is doing. Mr. Williams reported that the Pretreatment Specialist is being proactive on the inspections and notifying the businesses of near violations so that cleaning can be completed. Staff will be targeting specific neighborhoods with a mailer that shows their respective subdivision sign on the front and indicates that the neighborhood is having issues with excessive FOG discharges. The mailer will indicate what should be done to reduce this problem.

Ms. Merrill inquired about the progress with Basin 1 wet weather issues. Mr. Williams said that the I&I Project approved a few months ago by the Board is still underway and includes manhole and casting repairs throughout the area. The wet weather flow spikes have been reduced dramatically. The televising pilot project of the laterals in a neighborhood in Basin 1 will provide information to determine the severity of the I&I problem in private laterals.

Mr. Williams reported that the Cedar Point sewer installation is 90% complete and testing of the system has begun. Letters will be sent out to residents once the system is complete and ready for connections.

Mr. Williams reminded the Committee that several months ago Ms. Kreyling discovered that a property owner on Tara Ct. in the Edgewood subdivision had not paid their construction costs. This was overlooked during the transition of the former Director of Customer Service to the current Customer Service Manager. Staff mailed the property owner a letter regarding the matter to which the owner replied with a hardship request letter for the \$13,000 owed. Mrs. Poindexter will review the account and ordinance to determine how to proceed.

Mr. Williams reported that the recently hired Collections Superintendent is no longer with the company. The filling of this position will be re-evaluated.

Requests for service are coming in from outside of our territory, mainly in the northwest sector. Staff will research the best way to respond to these requests.

The meeting was adjourned at 8:21 a.m.

The next meeting is scheduled for Friday, May 27, 2016 at 7:30 a.m.

Respectfully submitted,

A handwritten signature in cursive script that reads "Ron Hansen".

Ron Hansen  
Controller

## ORDINANCE NO. 05-09-2016

An ordinance establishing a new District wide schedule of monthly user rates and charges to be collected from the owners of property served by the sewage works of the District and matters connected therewith, replacing Ordinance 05-11-2015, 05-13-2013, 04-09-2012 and 09-13-2004.

WHEREAS, based upon the District's 2016 Budget, it is advisable to update the schedule of rates and charges previously established pursuant to Ordinance 05-11-2015, 05-13-2013, 04-09-2012 and 09-13-2004; and

WHEREAS, the Board of Trustees desires to change the schedule of monthly user charges,

*Now, therefore, be it ordained by the Board of Trustees of the Clay Township Regional Waste District, Indiana:*

**Section 1.** The schedule of monthly user charges set forth on Exhibit A-1 attached hereto and incorporated herein shall supersede and replace the monthly user charges set forth on Exhibit A-1 of Ordinance 05-11-2015.

**Section 2.** The Application fee shall be \$150.00 and replaces the rate established under 05-13-2013.

**Section 3.** The Return Check Charge for NSF (Non-Sufficient Funds) shall be charged in the amount of \$30.00 per check and replaces the rate established under 04-09-2012.

**Section 4.** A Reinspection fee of \$100.00 shall be charged to the property owner for each reinspection if a property fails an inspection or requires more than two inspections. This fee replaces the rate established under 09-13-2004.

**Section 5.** The invalidity of any section, clause, sentence, or provision of this Ordinance shall not affect the validity of any part of this Ordinance which can be given effect without such invalid part or parts.

**Section 6.** The revised monthly user rates shall become effective for service received July 1, 2016 and thereafter.

***PASSED AND ADOPTED*** by the Board of Trustees of the Clay Township Regional Waste District on the \_\_\_\_ day of \_\_\_\_\_, 2016.

For the service rendered to the Clay Township Regional Waste District, said District shall be subject to the same rates and charges herein above provided, or to rates and charges established in harmony therewith.

In order to recover the cost of monitoring industrial wastes, the District shall charge the user the actual cost of the monitoring. This charge will be reviewed and revised on the same basis as all other rates and charges in the ordinance.

### PERSONNEL & BENEFITS COMMITTEE MEETING

Monday, April 25, 2016 @ 7:30 A.M.  
10701 N. College Ave, Suite A, Indianapolis, IN 46280

## MEETING CANCELLED

Next Meeting: May 23, 2016 @ 7:30 A.M.

## CAPITAL & CONSTRUCTION COMMITTEE

Monday, May 2, 2016 @ 4:30 P.M.

### Memorandum

Present: Committee Chair Amanda Foley, Committee Members Marilyn Anderson and Steve Pittman, Utility Director Andrew Williams, Engineering Manager Wes Merkle, District Engineer Ryan Hartman, Legal Counsel Anne Hensley Poindexter.

Ms. Foley called the meeting to order at 4:37 p.m.

Public Comments – There were no public comments.

Dedications – Mr. Hartman reported sanitary sewers for Drury Plaza and Jackson's Grant Section 1B are complete and ready for acceptance. The Committee will recommend the Board accept the dedication of Drury Plaza and Jackson's Grant Section 1B.

#1602 Springmill Parallel Interceptor engineering services – Mr. Merkle reported that in early April staff issued a Request for Proposals to three engineering firms to provide consulting services for this subject project. Staff reviewed their responses and recommends GRW Engineers, Inc. to complete the work, which includes engineering design, permitting, easement acquisition, bidding and construction administration services.

The Committee will request the Board approve the professional services contract with GRW Engineers, Inc. in an amount not to exceed \$75,200. Note this amount does not include easement acquisition services; the scope of easement acquisition services will be determined during the design process.

New Service Area Inquiries – Mr. Hartman received a call from Mr. Byrum regarding a 32 acre site near 146<sup>th</sup> street and Shelborne Road. Citizens Westfield told him it would be about 10 years until they extend service to that area. The District can service this parcel with existing gravity sewers nearby. However, since the parcel is not in the District's service area the property owner would need to request Citizens Westfield ask us to provide service. We also got a call regarding a 4 acre parcel nearby and north of 146<sup>th</sup> Street. Citizens told them to call us regarding sewer service. Mr. Williams will meet with Citizens Westfield representatives later this week to discuss servicing these parcels and others in the area.

Mr. Williams will have more information to present at the board meeting on Monday, May 9.

Queen's Manor and Estancia neighborhood sewer projects – The District has received several calls from property owners in this area requesting sewer service. Both subdivisions are currently unsewered. Staff recommends extending service to both subdivisions by low pressure systems. Mr. Hartman provided a 2009 study showing the construction layout. Easements should not be a problem. Next month staff will recommend a consultant to complete the design for this project. Once design is complete and a cost estimate is available staff will present the proposed project to the Board for consideration. Ms. Anderson requested that staff provide property owners with the same fact sheet used for the Cedar Point subdivision.

## UPDATES

LS # 16 was vandalized over the weekend. Vandals ripped the doors open to access the interior of the control panel. In addition to damaged control panel doors, staff found several removed relays, missing locks, a damaged overhead light and a damaged flow meter. One of the two pumps was not working. Zionsville police were called and a report was made. An insurance claim maybe made depending on the amount of damage and the deductible. This is the first instance of vandalism in the 11 years Mr. Williams has been with the District.

Mr. Hartman is working with a developer requesting service for a large horse stable at the southwest corner of 146<sup>th</sup> Street at Shelborne Road. District policy requires the developer to extend sewers to the furthest property line. However, only a 40 acre parcel would be serviced by extending sewers now. The Committee requested staff to request easements across the property that would one day allow sewers to be extended across the property, and to discuss subdividing with the developer to reduce connection fees.

### 1. Capital Projects & Construction

#1502 – Lift Station 2 upgrades will be nearly complete this month. The large VFDs and generator, items which had the longest lead time, were recently delivered to the site. Crews will finish installing remaining equipment in the coming weeks.

#1503 – NE Regional Lift Station (Jackson's Grant) – this project is at substantial completion. Crews are working through final punch list items.

#1504 – LS 17 Odor Control – staff is researching technology and expects to have new odor control equipment installed this year. Several three year old manholes were recently found to be badly deteriorated due to high hydrogen sulfide exposure, which is the source of the odor.

#1505 – WWTP Odor Control Upgrades – Design work will be complete shortly with bids received in the coming weeks. New equipment will be installed this year.

#1506 – Basin 1 Wet Weather Solutions – Manhole rehab work continues and is approximately 60-70% complete.

#1509 – Ream Creek sewer relocation project – this project remains on hold while a fiber optic company relocates its lines that are in conflict with our sewers. Sewer relocation work should resume in a few weeks.

#1510 – Cedar Point Sewer Extension – most of the pipes have been installed; testing and cleanup should be complete in the next few weeks.

#1601 – 106<sup>th</sup> Street Parallel Force Main – Plans are being finalized. Remaining two property owners have committed to granting easements. Bids will be received late June.

#1602 – Springmill Parallel Interceptor – the design contract will be presented to the Board at Monday's meeting for approval. It will provide additional capacity to that area.

Mr. Williams reported that the new Collections Superintendent did not complete the 90 day orientation period. He will consider how to best fill this position.

Mr. Merkle reported that in the near future the staff will be bringing several design service agreements to the committee for improvements to Lift Station 8 and the Michigan Road WWTP.

Ms. Anderson encouraged the committee to submit potential names for the District. She suggested not specifying the location in the name but instead focus more along the lines of water recovery. A new name could be in place before the 40<sup>th</sup> anniversary celebration in June.

The meeting was adjourned at 5:55 p.m.

Date and time for next meeting: Monday, June 6, 2016 at 4:30 p.m.

Respectfully submitted,

A handwritten signature in black ink, appearing to read 'Wes Merkle', written over the printed name.

Wes Merkle  
Engineering Manager

## MEMORANDUM

---

**To: Board of Trustees**  
**From: Ryan Hartman**  
**Date: May 2, 2016**  
**Subject: Dedication**

---

Jackson's Grant Sections 1B & The Drury Plaza is complete and ready for acceptance.

Recommended Action: Accept the dedication of Jackson's Grant Sections 1B & Drury Plaza sanitary sewers.

## MEMORANDUM

---

**To: Board of Trustees**

**From: Wes Merkle**

**Date: May 2, 2016**

**Subject: Project #1602 Springmill  
Parallel Interceptor**

---

In early April staff issued a Request for Proposals to three firms to provide consulting services for the subject project. Staff reviewed their responses and recommends GRW Engineers, Inc. to complete the work, which includes engineering design, permitting, easement acquisition, bidding and construction administration services.

Recommended Action: Approve the professional services contract with GRW Engineers, Inc. in an amount not to exceed \$75,200. Note, this amount does not include easement acquisition services; the scope of easement acquisition services will be determined during the design process.
