

TriCo Field Operations Specialist or Technician Job Opening

TriCo Regional Sewer Utility has an opening for an experienced **Field Operations Specialist or Technician**. This position is responsible for the operations and maintenance of TriCo's collection system. This is a full time, nonexempt position that reports to the Collections Superintendent. The position will be filled at the Grade and Step based on the experience of the candidate. The pay range for the Specialist is \$22.94 to \$29.32 and for the Technician is \$20.62 to \$26.36.

Some of the essential duties include:

Develops and completes the appropriate paperwork for all inspections performed.

Establishes locations for television inspection of sewer lines, reviews video records for scheduling repairs, cleaning, flow monitoring and smoke testing.

Provides air relief valve installation, maintenance, and inspections of check valves.

Servises all manholes to include, but not limited to: locating, inspection, identifying issues in need of repair, making repairs, replacing broken or missing bolts and washers, replacing faulty steps, grouting of chimney's and barrel sections, resetting castings and riser rings, repairing and resealing joints, repairing squirting holes, etc.

Prepares specifications and purchases materials, supplies and spare parts for equipment and maintenance of the sanitary sewer system.

Determines locations and procedures for setting up emergency pumping units.

Maintains sewer lines to include, but not limited to cleaning, clearing blockages, vacuuming debris, etc.

Responds to inquiries and complaints from property owners.

Fields calls after hours from the Emergency Call Center and the Supervisor Control and Data Acquisition (SCADA) Alarm System.
